The ceremonies were very interesting. At seven o'clock, the brethren of Meridian assembled in the Lodge room. King Solomon Lodge was opened, and the officers which had been serving under Dispensation were elected under the charter. The Grand Lodge was then opened, and a procession formed, and preceded by a band of music, marched to the Presbyterian church. Splendid and appropriate music by the choir, an oration by Bro. Whitaker, the installation by the Grand Master, and the the presentation of a costly gold watch and chain to Bro. A Woolf, the W .. Master, from his brethren, and also the presentation of a gold watch to Bro. Wm. S. Dickson Cotton Seed.

THE subscriber offers for sale the above seed the present year's product from seed imported from David Dickson, of Sparta, Georgia. The price of seed saved from the first and 2nd pickings will be two dollars and a half per bushel, or two dollars for amounts over twenty bushels. There will be a limited amount above my own wants of seed that have been selected again as improved seed, the price of which will be \$4 per bushel. The later pickings, of which there will be a large quantity, can be sold for one dollar per bushel.

Parties ordering seed from a distance can have them forwarded from Summitt. This variety of seed is twenty days more forward than any either variety—gives a much larger yield and turns out more lint cotton.

DR. M'LANE'S CELEBRATED LIVER PILLS,

FOR THE CURE OF Hepatitis or Liver Complaint, DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver. DAIN in the right side, under the edge of the ribs, increase on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulderblade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the

Their sugar-coating preserves them ever fresh, and makes them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, howels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such detrangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:— For Dyspepsia or Indigestion, Listless-mess, Languer and Loss of Appetite, they should be taken moderately to stimulate the stom-

D. J. HARTSOOK,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic

No one remedy is londer called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arrise from its use in any quantity. That which protects from or prevents this disorder must be of immense service in the communities where it provails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure "expeds the missmatic poison of Feren and Ague from the system, and prevents the development of the disasse, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings, it within the reach of everybody; and in billous districts, where FINNIN AND AUTE prevails, everybody should have it, and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those curred by it are left as healthy as

or other injurious effects whatever upon the con-stitution. Those cured by it are left as healthy as if they had never had the disease.

Fover and Agne is not alone the consequence of the missenatic poisson. A great variety of disorders arise from its irritation, among which are Neural-gia, Rheumatism, Gout, Headache, Blindsess, Toothache, Earache, Catavrh, Asthma, Palpitation, Paintid Affection of the Spleen, Hysteries, Pain in the Bowels, Colie, Paralysis, and derangement of the Stomach, all of which, when originating in this cause, put on the internitient type, or become the Stomach, all of which, when originating in this cause, put on the intermittent type, or become perceived. This "Cens" expels the poison from the blood, and consequently cures them all allke. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily white exposes to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripon into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from terpidi-tr of the fiver, it is an excellent remedy, stimulat-ing the Liver into healthy activity, and produ-cing many truly remarkable cures, where other medicines fail.
